****Any amount paid toward an existing system review and/or inspection will be credited to the modification permit application.***

II. PLEASE PROVIDE THE FOLLOWING:

- A. A complete application
- B. Two sealed copies of the engineer/private soil evaluator’s data (if applicable)
- C. A written legal description of the property
- D. A floor plan of the building (**Must Show the Existing and Proposed Information**)
 - i. Residential floor plan must show the number of bedrooms and total square footage
 - ii. Non-residential floor plan must show the total square footage, all plumbing drains, fixture types, and any other features necessary to determine composition and quality of the wastewater generated
- E. Four copies of the site plan (signed and dated by the owner or owner’s authorized agent) with all items addressed on the attached site plan checklist (**Must Show the Existing and Proposed Information**)
- F. Owner Authorization (if the applicant is not the property owner)
- G. A copy of the Warranty Deed (if the property has recently been purchased)
- H. Complete Existing System/Repair Evaluation Form (**For Existing Systems**)

****For single family residence remodels/modifications that do not include a bedroom addition, items B. and H. above are not required.***

*****The application will not be processed until ALL of the above items have been received.***

III. ADDITIONAL REQUIREMENTS/IMPORTANT INFORMATION:

- A. Upon initial receipt of an application where department personnel complete the site evaluation, the application will be placed on a 48-hour hold in order to have underground utilities located.
- B. According to the Brevard County Code of Ordinances, an onsite sewage treatment and disposal system (OSTDS) permit will automatically expire if a building permit for the construction of a habitable structure on the subject property is not obtained from the appropriate governmental authority within 120 days after the date of issuance of the OSTDS construction permit.
- C. The connection piping from the structure drain to the septic tank must be available for inspection by the Florida Department of Health – Brevard County. Please contact your local building department for information on whether additional inspections by their staff are required. ***Do not cover the inlet drain piping until it has been approved by an Environmental Health inspector.***
- D. If applicable, a soil evaluation will be completed at the time of the system inspection for no additional fee. A separate excavation inspection prior to system installation is optional.
- E. Any condition that requires an unnecessary visit to the site will result in a re-inspection fee being charged to the applicant.
- F. Environmental Health business hours are Monday – Friday from 8:00am to 4:30pm.
