Viera, Fla. — The Florida Department of Health in Brevard County (DOH-Brevard) invites Brevard County residents to attend the Feel Good February Health Fair on Saturday, February 28, 2026.

The event will be held from 9 – 11 A.M. at:

**DOH-Brevard Conference Center
2555 Judge Fran Jameison Way
Viera, FL 32940**

The Feel Good February Health Fair will offer Brevard County residents free blood pressure screenings, bone density screenings, access to local community resources, and engaging educational activities for all ages. A highlight of the event is the Giant Inflatable Colon Tours, an interactive exhibit designed to raise awareness about colon health and disease prevention. The fair aims to promote preventative care, connect the community to valuable resources, and encourage healthier lifestyles.

February is recognized as American Heart Month, a time to increase heart disease awareness and promote prevention and treatment in the community. DOH-Brevard encourages all Floridians to adopt a lifestyle which promotes heart health and well-being, including maintaining healthy cholesterol levels, adding physical activity into your weekly schedule, and eating nutritious foods that compliment a healthy cardiovascular system. Nationally, as well as for Florida, more people die each year from heart disease than from any other cause.
